1. What is your connection or interest in this case?

I am a customer of the Tega Cay Water Service, Inc who is requesting a drastic increase in water and sewer rates.

2. Please give a concise statement of your protest. *

I am protesting the drastic rate increase requested by our water & sewer provider known as Tega Cay Water Service, Inc. This company has previously been awarded rate increases and permits over the objection and concern of it's customers. But we have not seen improvements made with these previous increases. The 2012 letter, provided by TCWS, is an attempt to validate the requested rate increase. It states that the rate relief will allow them the opportunity to recover capital investments & expenditures that have already been made, such as repairing water distribution systems, upgrades to the wastewater treatment systems & their increase in operating expenses. This is an unjustified request. The company has additional

expenses that have resulted from their own negligence or poor management. TCWS has been the source of many issues with sewage overflow into the lake and surrounding properties. This company should have been performing regular maintenance and preventive measures while allocating adequate funds for proper maintenance and depreciation annually. Instead, the system has been allowed to depreciate and deteriorate while cash was used for their own capital gain. This method of management should not be condoned with additional customer funds to bail-out their failed oversights. We, the customers, should not be penalized by having to absorb this inflated rate request.

3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? *

I would like to attend, but do not desire to offer sworn testimony.
